

Brianna Harris

Experience May 2016-July 2016 **National Zoo and Aquarium** Canberra, Australia

Internship

- My internship required me to work in different sections of animals each day learning about the care and maintenance of native Australian animals, reptiles, fish, sharks, wild cats, livestock, aviary, etc.
- I was also required to prepare feed within the nutrition guidelines for each animal.
- Enrichment and training was done each day, in which I was allowed to participate.

January 2017-May 2017 **WVU Biology Department** Morgantown, West Virginia

Biology 117 Tutor

- Every week, I was required to tutor students in the topics focused on in the Biology 117 coursework.
- I was also required to assist in writing lab reports and working through the labs.

August 2017-Present **Kovinich Lab** Morgantown, West Virginia

Undergraduate Research

- Studying gene function in soybean related to defense metabolite production.
